FRANCE DECLARES WAR ON AUSTRIA; CALM BEFORE THE STORM AT LIEGE

DAY OF QUIET AT LIEGE; BELGIUM IS COVERED WITH NETWORK GERMAN SPIES

LONDON, Aug. 10.—No great battle has yet been fought on land or sea. Liege fighting appears to be the calm before the storm, a desperate battle is imminent. Many detached German soldiers are surrendering, glad to get out of a battle in which they are not engaged. The British and Belgian forces are still holding the forts, while the Germans are occupying the city, and the situation is unique. There is no information of reports that the French engaged the Germans and blocked their retreat, killing 8000. The Belgians claim 8000 prisoners. This, it is believed, is exaggerated.

Apert from Liege, the fighting has been quiet. The most important developments in the expert opinion that the German military formation is superior, against modern weapons and means an enormous slaughter is expected. France and Austria are finally officially at war, and Austria has apparently stopped her advance on Serbia to assist Germany.

French conditions in England are returning to normal, as foodstuffs are only slightly higher.

Reveille are sounding by several thousands daily. Everybody is drilling. The Prince of Wales found for the relief of the soldiers and sailors received \$2,500,000 today.

CONGRESS PLANS REVOLUTION OF COTTON BUYING

DEPARTMENT OF AGRICULTURE
SUBMITS PLANS TO FULLY PRO-

GOVERNMENT OVERSEES

Federal Standardization of Grades and Establishment of Warehouse System to Make Warehouse Receipts Basis of Farmers' Credit.

WASHINGTON, Aug. 10.—The department of agriculture today announced that it will submit a bill to Congress for a complete revolution in the cotton buying system.

It comprehends the government supervision of marketing, the federal standardization of grades, and the establishment of a warehouse system to make valid cotton a solid basis for credit in the purchase of goods for export.

Under such conditions the new federal cotton market will probably make warehouse receipts the basis of credit, and will prevent the kind of speculation that has been the ruin of many farmers.

AUSTRIANS CAUSE BREACH BY ASSISTING GERMANS IN PROCEEDING ON FRANCE

PARIS, Aug. 10.—It was officially announced tonight that France has severed diplomatic relations with Austria. The French ambassador has left Vienna and the Austrian ambassador has left Paris.

The foreign office said that contrary to Austria's assurances, Austrian troops were relieving the German garrisons in Germany, which would proceed against the French, and therefore the Austrians must be considered as acting against the French.

In announcing the breaking off of relations with Austria, the French office has made the following statement:

"Contrary to assurances given by Austria to the French minister of foreign affairs that no Austrian troops were taking part in the Franco-German war, the French government has ascertained beyond any possible doubt that certain Austrian troops are at present in Germany, outside the Austrian frontier."

"These troops, which have not been certain German troops destined to be employed in fighting the French, ought to be considered as acting against France."

"In these circumstances the French ambassador was ordered to leave Vienna."

"The Austrian ambassador at Paris on being informed of France's decision, asked for his passports."
